About Howard Industries

In 1968, a young Billy W. Howard, Sr. left his successful career at General Electric to return to his native Mississippi and create his own company, Howard Industries. Over the next three decades and with the assistance of his wife, Linda, Howard Industries has grown to become a billion dollar company consisting of four separate divisions plus a wholly-owned subsidiary, Howard Transportation. While the Howards readily attribute their success to the hard work of their employees and their commitment to creating, supplying, and supporting superior products and services, you cannot overlook their inspiration – Billy W. Howard, Sr

¹ WARNING: This lamp can cause serious skin burn and eye inflammation from short-wave radiation if outer envelope of the lamp is broken or punctured. Do not use where people will remain for more than a few minutes unless adequate shielding or other safety precautions are used. Lamps that will automatically extinguish when the outer envelope is broken or punctured are commercially available.
